Melissa Ashton - Puyallup SD

“ This program helped me understand the philosophy behind and components of a CTE program. It expanded my knowledge of CTE and my role as a CTE teacher.

Brooke Weber - Bellevue SD

“ I just really thought the feedback was great and appreciated working on assignments that I can directly use in the future.

Sarah Magney - West Valley SD

“ This program was exactly what I needed to be able to make a career change at this point in my life. It was affordable and flexible, and taught me everything I needed to be able to make a successful transition into a new position as a CTE teacher. Thank you!

Jeff Lochhead - Mead SD

“ I have really appreciated the use of the 21st Century Leadership Skills. It is the one area I plan spending the most time preparing to teach better next year in my classes, both CTE and non-CTE classes.

Sarah Olson - Mercer Island SD

“ I've taught for 34 years and taken countless education classes including a Masters Degree. This program is BY FAR the best professional development I've ever received. It was accessible, held us accountable, supported us, made us think, and gave us excellent resources. I don't think I've ever felt that I wanted to keep taking a class before, but after growing so much as a CTE instructor, I will miss the ideas and advice along the way.

Christy Dunn - Evergreen SD

“ I really appreciate a program that was so easy to complete on my own timeline and all the courses were online. I don't know how I would have been able to fit in this coursework otherwise with my busy teaching schedule and having 2 young kids of my own at home too.

Mirabella Escobar - Highline SD

“ I am very grateful I found this program. It's the only program that has truly accommodated my lifestyle and supported me as a teacher.
