School: Colville High School
Instructor: Tracey Delyea

Medium: Graphite

Artist Statement

The piece I did is a photo of me as a kid. I have always loved that photo of me and it reminds me of all the memories from me being in school and of halloween as a kid. The reason why I chose this photo is because I always loved my inner child and I feel as though this piece brings out that part of me. I made this art piece with pencil and what I learned from it is that when you use a pencil it can smear and you have to go back and erase where it should be white.

Status: Exhibit only
