

A Study in Mahogany

Student: Nia Guest
District: Cheney Public Schools
School: Cheney High School
Instructor: Jessa Morissey

Medium: Digital Photography

Artist Statement

In my digital photography class, I was given the chance to experiment with light, angles, and various complementary colors. So, with the props available, I decided to pair under lighting with a similarly colored stool and contrasted it with its color complement of blue. I chose to use blue flowers and safety glasses for my complementary element in part due to the juxtaposition in theme they create. The glasses represent modernity, the ever-constant need to build and change, whereas the flowers represent the beauty found in nature. There is a softness to offset the rough edges of the glasses; displaying that nature and innovation can work together, a compromise for the betterment of both.
