**School:** Cheney High School  
**Instructor:** Jessa Morissey

**Medium:** Digital Photography

### **Artist Statement**

When I started this project, I struggled to find the perfect object, looking around and coming up blank trying different things until I saw a bowl of blueberries sitting on a desk and I thought that maybe something as mundane as this could prove to be something extraordinary. I ended up taking one of my best pictures yet. The lesson that's learned here is to take every chance you get and try as much as you can to have the best outcome for you.
