Artist Statement

Pottery helps me express myself and exhibit my talents and shows others that you do not have to be perfect to make something beautiful. To find inspiration I explore other artists and techniques to push myself and expand my repertoire. My favorite technique to use is relief carving and underglaze painting. I like to start by throwing a form on the wheel and working off it, such as adding or carving. I pull from nature and find something that I want to create based on the form and make decisions as I go, seeing what makes sense and feels right along the way. My goal is to create a scene with movement, depth, and contrast that speaks to the viewer and pulls them in.
