

## **Plants from Outerspace**

**Student:** Brooklynn Park  
**District:** Cheney Public Schools  
**School:** Cheney High School  
**Instructor:** Rebecca Dempsey

**Medium:** Ceramic Clay

### **Artist Statement**

I like weird and scary things. My objective for this piece was to make something that I like. I want to show other people how cool something weird or scary can look. It might make others feel a different way. I first got the idea when drawing a card randomly to make a piece for a ceramic class final. My category was "Out of this World" and it made me think of the musical " Little Shop of Horrors." I thought about the plant that the main character had taken care of. I gave my own interpretation of what my plant would look like if I had found one myself and took care of it. I worked through issues while constructing and am pleased how it turned out!

**Status:** Sell
