Artist Statement

My favorite form of art is ceramics because of the 3D aspect. I feel that art becomes much more lifelike when you can hold it in your hands and feel the texture, the form, and emotion expressing my perspective of the world around us. To find inspiration for my pieces I go outside and embrace nature. I think that things that are overgrown have more potential for a story because although it's been untouched by humans for so long it's right there with all the other living things as it gets reclaimed by nature.
