### **Artist Statement**

One of the art teachers wanted somebody in the ceramic class to make a ceramic banana and I decided to do so as that could be a very nice gag gift for my Pa's b-day. From there my ceramics teacher (Miss Dempsey) decided that I should put it in the art show over my other piece because she thought it looked rather good. And thus, there is now a ceramic banana with the ultimate purpose of being a gag gift in an art show.
