### **Artist Statement**

I have always loved animals, mostly cats or dogs but it can also be other animals. So my artwork usually includes different kinds of animals. Whether its a real animal or a mythical creature, so I wanted to include them in my art pieces. I usually use color, line, and value in my art. I usually use either a pencil or a digital art program to make art. I used watercolors, acrylic paint, and digital art to create the pieces in my portfolio. I wanted to show how animals interact with an urban setting, at first I wanted to show how animals were negatively affected by there urban settings but as I made my art I don't think I did that well so I changed it to just being animals in urban settings.

**Status:** Exhibit only
