FOR IMMEDIATE RELEASE

March 31, 2023

Regional and State 2023 Knowledge Bowl Results Announced

SPOKANE, WA – Thirteen high school teams representing five counties across northeast Washington recently competed in the 2023 Knowledge Bowl at Whitworth University hosted by Northeast Washington Educational Service District 101's Teaching & Learning department.

The academic competition, held annually by each of Washington's nine ESDs, tests team knowledge in a variety of traditional secondary subjects including math, science, history, literature, music, geography and current events.

Nine high schools received Regional Ribbons and Trophies. First, second and third-place trophy winners in NEWESD 101's regional tournament included Gonzaga Preparatory High School, Pullman High School and Lewis and Clark High School (respectively).

Regional teams advanced to state Knowledge Bowl tournaments, by school size classification, held earlier this month at Wenatchee High School in Wenatchee, WA. Of the top regional teams that advanced to the state tournament, four received state awards including Gonzaga Prep (first place in the 4A division), Ridgeline (first place in the 3A division), Pullman (second place in the 2A division) and Liberty (first place in the 2B division).
