Identifying and Confronting Hate in our Schools: Unmasking the new face of hate in schools and social media

Hear from experts in the Pacific Northwest on the frontlines. Identifying and confronting the new face of hate in our community, this interactive workshop will provide life stories of how new hate groups like *Identity Evropa* and others are working online and elsewhere to recruit students. We will discuss practical solutions to identify the signs of hate in our schools, support vulnerable kids and confront hate when it appears in our building.

Join with educators and law enforcement experts as we discuss the threat hate groups present to our kids.

"Identifying and confronting hate in our community is one of the most important issues facing the northwest."
